V International Scientific Seminar

Training and
Local
Development

*For a university
towards sustainable
local development*

*Baracoa-Guantánamo
November 13th to 15th, 2019*

Dear professors, researchers, businessmen and friends from all over the world:

The University of Guantanamo announces the **V International Scientific Seminar Training and Local Development**, which will be held from November 13th to 15th, 2019, in the First City of Cuba, Baracoa.

This event constitutes a socialization space for research results and university management, with the aim of promoting the debate on the place that local dimension occupies in the global dynamics for the development of the territory.

Our academic institution opens its doors to welcome all interested parties. It will be a pleasure to have your presence in Baracoa, a city that for more than five centuries maintains an ecological beauty like few other places in the world.

Organizing Committee

OBJECTIVES

- To socialize the results of researches and university management that constitute proposals for local development in the different society spheres.
- To promote a space for knowledge

exchange and coordination of work projects among universities, institutions and companies committed to the sustainable development at the local, regional and international levels.

- To contribute to the university transformation for local development in the large scope partnership agreements consensus, strengthening the actions of the Cuban university community with participants from other countries' universities.
